

Nurse appointments at Extended Primary Care Service - North Hub

Routine nursing appointments are now being offered at the EPCS. The clinics will run on Thursdays and alternate Saturdays and will be in addition to the existing dressing clinic on Saturdays.

A list of the services offered are:

- Cervical smears
- Childhood immunisations
- Typhoid and tetanus vaccinations for travel
- Pertussis vaccinations for pregnant women
- Ear irrigation
- Wound care
- NHS healthchecks
- Hypertension reviews

The EPCS will not be prescribing anti malaria tablets.

Patients will need to be triaged for travel vaccinations, to ensure that they are appropriate for EPCS.

All other appointments can be directly booked by practice administration staff.

For wound care, please ask patients to bring their dressings with them.
